

Multi-Purpose Products Summary

Product	Product Type	Type of Metal	Machining Applications	Operating Concentration	Performance Features	Comments
IC-211	Soluble Oil	Ferrous & Non-Ferrous	Emulsion Cleaner RP and Coolant	5-10% Concentration	Good Lubricity Corrosion Protection	Multipurpose Economical Coolant
VG-550	Synthetic	Ferrous Metals Non-Ferrous	Grinding Coolant Rust Inhibitor	2-5% Concentration	Grinding Fluid and Rust Inhibitor	Low Foaming Oil Rejecting
EK-450	Synthetic	Ferrous and Non-Ferrous	Deburring Cpd. Rust Inhibitor	5-10% Concentration	Short to Medium Term Protection	Dry Film Non-Staining
NC-1338	Cleaner	Ferrous and Non-Ferrous	Acid Cleaner Soak Applications	5-10% Concentration	Low Surface Tension	Brightens Copper Removes Black Oxide
NC-1339	Cleaner	Ferrous and Non-Ferrous	Acid Cleaner Spray Application	1-5% Concentration	Low Surface Tension	Brightens Copper
CC-8001	Iron Phosphate	Ferrous Metals	Iron Phosphate Acid Cleaner	1-5% Concentration	Low Foaming	Phos / Cleaner Economical

* Non-ferrous metals do not include magnesium and other highly active metals. Check compatibility prior to use.
